

# ABDULRAHMAN “AOOF” MOUSA

Montreal, QC | +1 514 717-7233 | [aoof.mousa@gmail.com](mailto:aoof.mousa@gmail.com) | [linkedin.com/in/aoof](https://www.linkedin.com/in/aoof) | [github.com/aoof](https://github.com/aoof) | [aoof.ca](https://aoof.ca)

## EDUCATION

### LaSalle College Montreal

Computer Science Technology (420.B0)

Aug 2024 – Aug 2027

Montreal, QC

## EXPERIENCE

### PHP and WordPress Web Developer

Festival International Bach Montréal (contract)

May 2026 – September 2026

Montreal, QC

- Designed, developed, tested and implemented features into the theme of a known festival's WordPress website. Utilized local Git for version control. HTML, CSS, JavaScript and PHP for admin and end-user features.
- Communicated directly with a non-technical client with transparency and coherence.

### Functional and Linguistic QA Tester

Altagram Canada

Feb 2024 – May 2026

Montreal, QC

- Tested games for PlayStation, Xbox and Nintendo certification and release.
- Functional and linguistic testing for various game titles including Aska, Candy Crush, Snow Riders, and Planet of Lana II.

### Barista

Noctis Café

May 2026 – July 2026

Montreal, QC

- Made and memorized various espresso-based drinks and smoothies.
- Completed tasks autonomously such as opening and closing the shop, cleaning and organizing, and keeping merchandise and ingredients stocked.
- Served customers in both English and French.

## PROJECTS AND ACTIVITIES

### College-Level Programming Tutor

Freelance

Tutored tens of students, with some achieving 50% or more improvement in their grades. Led .NET development sessions in C#, as well as Java and Python programming workshops.

### Official Website Development

International and Ethnic Associations Council Concordia — [ieac.ca](https://ieac.ca)  
(repo private for client's safety)

One of my first web dev projects. Built with minimal dependencies using mostly Express.js, Node.js, EJS, webpack, i18n, and MongoDB.

### Vehicle Management System

[github.com/aoof/vehicles-management-system](https://github.com/aoof/vehicles-management-system)

OOP project focused on architecture and data management, built closely to spec.

### Clinic Management Windows

[github.com/aoof/clinic-management](https://github.com/aoof/clinic-management)

.NET Framework project built with 4 peers as a final college project. Proud of the design and integration of all teammates' parts despite no prior .NET Framework 6 experience.

### AdvertisementOverride

[aoof.itch.io/advertisementoverride](https://aoof.itch.io/advertisementoverride)

A small swarm game built with friends for an online game jam. Used Unity and C# to combine the team's work into a playable loop within a weekend.

### Game Jams & Hackathons

Participated in 4+ Game Jams and Hackathons

Led rapid prototyping sessions in C++ and C#, managed version control using GitHub, and collaborated within agile teams to deliver playable game demos under tight deadlines.

## VOLUNTEERING

### Various Volunteer Activities

- Contributed to the design and development of web pages for Welfare Avenue (non-profit organization), as well as logistical support through Google Ads and Meta Ads.
- Participated in LaSalle College's Fusion Festival.
- Volunteered to represent LaSalle College at the Montreal International Game Summit (MIGS).
- Volunteered at Animaze, a film festival; helped set up and use Eventbrite's check-in and decorated the gate.
